

WAX RECOMMENDATION

Mora Vasaloppet - 13K Freestyle

Mora, MN

Sunday, February 14

12:30 P.M.

13K Skate

Forecast/Conditions: Expect a machine worked track with a mixture of fresh and old snow, with some soft conditions from earlier racers. Temperature Saturday night expected to get down to the mid single digits. Race time temperature should be in the mid-teens with mostly sunny skies.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue/HF Red mixed 1:1, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A universal grind covered by one pass with the Red TOKO Structurite tool (old medium offset wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
