Racing - Service

Washington Biathlon Association Race 1

Stevens Pass Nordic Center (5 miles East of summit), WA
Saturday, January 20
10:30 A.M. Zeroing, 11:30 A.M. Race
12.5K Men, 10K Women
Mass start
http://www.wabiathlon.org/

Forecast/Conditions: Some snow to likely occur daily from Tuesday through race day. Friday night low of 27 with snow temperature not predicted to rise significantly prior to event. A 60 percent chance of snowfall during event.

Glidewax: Apply LF Red, scrape and brush, then apply HF Red, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: NA

Structure: A Universal or fine linier structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Check the Wax Tips page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
