

# WAX RECOMMENDATION **TOKO**<sup>®</sup>

## **MLK Day Invitational Ski Carnival -- AM races**

Valleywood Golf Course, Apple Valley, MN

Monday, January 18

5K Classic mass start (9 A.M. boys, 9:30 A.M. Girls)

1.3K Skate sprints qualifiers (10 A.M. Girls, 10:15 A.M. Boys)

1.3K Skate sprint heats (11 A.M.)

**Forecast/Conditions:** Expect a hardpack of transformed snow that will soften throughout the day with uphill turning to sugar snow. Race day will be preceded by three days of freeze/thaw cycle. Sunday evening low in the mid-20s, mid-20s for the Classic race and high 20s for the Sprints. Mostly sunny with a slight wind from the west.

**Glidewax:** Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply layers of Carbon GripWax Viola, corking between layers. Skiers needing more kick should use Carbon GripWax Yellow.

**Structure:** A universal grind covered by one pass with the Red TOKO Structurite tool (old medium offset wheel) before JetStream application will best suit these conditions.

**Racing - Service**

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
