

WAX RECOMMENDATION **TOKO**[®]

Grand View XC Ski Challenge

Wolverine Trails, Ironwood, MI

Saturday, Dec. 12

9 A.M. CST (5K), 10 A.M. CST (10K)

Freestyle 5K/10K

Interval start

Forecast/Conditions: Overnight low -4F, rising slightly to near zero F at start and remaining in the single digits for the duration of the race. Light winds and significant amount of newly fallen snow will likely make for soft track. Expect machine worked conditions.

Glidewax: Apply LF Blue/LF Moly mixed 1:1, scrape and brush. Then apply HF Blue, sprinkle on Nordlite Powder X-cold, iron in together, scrape and brush out well. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush, and buff with the white side of the Thermopad.

Gripwax: N/A

Structure: A fine grind will best suit these conditions. Additional structure should not be necessary.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
