

WAX RECOMMENDATION

Hoigaards Breadsmith Relays

Theo Wirth Park, Minneapolis, MN

Saturday, Dec. 12

8:45 A.M. Master start, 9:30 A.M. Junior (HS)

4 x 2K skate relay (each leg is two laps)

On-site registration 8 to 8:45 A.M.

Forecast/Conditions: The recent snow fell at very cold temperatures and was dry and windblown. Windy conditions and cold temperatures are expected to continue up to race time. Friday evening low slightly below zero F with race time temperature at zero. Partly sunny.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue, sprinkle on Nordlite Powder X-cold, iron in together, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: A fine linear grind covered by one pass with the Blue TOKO Structurite tool (old fine-linear wheel) before HF Blue/X-cold application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
