

WAX RECOMMENDATION **TOKO**[®]

North End Classic

Birkie Trail, Cable, WI

Sunday, February 14

10 A.M.

13K/24K Classic

Mass Start

Forecast/Conditions: Expect firm tracks with mixture of fresh and old snow. Overnight low expected near 5F rising to mid-teens during the race. Overcast with a chance of snow during the race.

Glidewax: Apply LF Blue/LF Moly mixed 1:1, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brushing with a dedicated nylon polishing brush, and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply additional layers of Carbon GripWax White, corking between layers.

Structure: A cold-universal grind or a universal grind or one pass with the Blue TOKO Structurite tool before JetStream application will best suit these conditions

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
