

WAX RECOMMENDATION

Giants Ridge Invitational - Classic Race

Giants Ridge Golf and Ski Resort, Biwabik, MN

Saturday, January 9

10 A.M. Boys, Noon Girls

5K Classic, single lap of old HS course

Interval start (paired 30-second)

Forecast/Conditions: Overnight low of -15F, rising to -4F at Boys start and 7F at Girls start. Expect worked snow and glazed tracks due to high humidity overnight and heavy ski traffic. No new snow expected leading up to or during the race.

Glidewax: Apply LF Blue/LF Moly mixed 1:1, scrape and brush, then apply HF Blue, sprinkle on Nordlite Powder X-cold, iron in together, scrape and brush. Finish by rotocorking JetStream Blue, brushing with a dedicated nylon polishing brush, and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. For Boys, apply 3 layers of Carbon GripWax Mint, corking between layers. Those requiring more kick should apply short layers of Carbon GripWax White. Girls apply 3 layers of Carbon GripWax Blue, corking between layers.

Structure: A very fine linear structure will best suit these conditions. No additional structure should be added with the Toko Structurite tool.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
