

# WAX RECOMMENDATION

## MN High School Section 3

Battle Creek - Wintrop, St. Paul, MN

Tuesday, February 2

Pursuit: 5K Classic/5K Skate

Classic: 9:30 A.M. Boys; 10:30 A.M. Girls

Skate: 2 P.M. Boys; 3 P.M. Girls

Forecast/Conditions: Expect hard packed, icy conditions, with icy or glazed tracks. Monday night lows in the high single digits. Temperature during morning races in high single digits. Temperature during the afternoon races in high teens. Mostly cloudy becoming windy for PM races., a 40 percent chance of snow Monday evening or early Tuesday morning.

Glidewax: Apply LF Moly/LF Blue mixed 1:1, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brushing with a dedicated nylon polishing brush, and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper. Iron in Carbon Klister Base Green. Apply Klister Viola. If it snows Monday evening cover klister with Carbon GripWax White.

Structure: A fine linear grind covered by one pass with the Blue TOKO Structurite tool (old fine-linear wheel) before application of the HF Blue layer will best suit these conditions.

Racing - Service

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
