

# WAX RECOMMENDATION

## Madison Winter Festival - Freestyle Criterium

Madison Concourse Hotel, Madison, WI

Saturday, February 20

1:30 P.M. 7.5K Women's SuperTour Freestyle Criterium

2 P.M. 9K Men's SuperTour Freestyle Criterium

2:30 P.M. 6K Women's Master's/Citizen Freestyle Criterium

3 P.M. 9K Men's Master's/Citizen Freestyle Criterium

Forecast/Conditions: Expect a machine-worked track with the snow trucked in to cover the course on the Capitol square. Race time temperature should be in the upper 20s with mostly cloudy skies.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Moly mixed 1:1, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad. HF Moly mix should help with dirt in snow.

Gripwax: N/A

Structure: A universal grind covered by one pass with the Red TOKO Structurite tool (old medium offset wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
