

WAX RECOMMENDATION **TOKO**[®]

City of Lake Loppet Toko/Finn Sisu Sprints

Minneapolis, MN

Saturday, February 6

4 P.M. Qualifiers

1K Skate Sprint races

2 loops with four 180 degree turns

Forecast/Conditions: This race will be on manmade snow trucked in Friday morning, packed and tilled midday on Friday. Expect the track to start firm and become soft as the heats progress. Snowfall at temperatures in the high 20s up to 32 degrees is likely throughout the day on Friday. Saturday morning low near 20, rising to mid-20s by race time.

Glidewax: Apply LF Moly/LF Blue mixed 1:1, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: A fine linear grind covered by one pass with the Red TOKO Structurite tool (old medium offset wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
