

WAX RECOMMENDATION

Ski Rennan/WNC #4

Icicle Creek Fish Hatchery, Leavenworth, WA

Sunday, January 28

10:45 A.M. first race

5K Open, 5K, 2K, 1K

Freestyle technique

<http://www.skileavenworth.com>

Forecast/Conditions: The five days preceding the event have temperatures ranging between 31 and 41. Overnight Saturday falling to 39 and then rising to 41 at race time with a 35 percent chance of rain falling. Snowpack will be soft.

Glidewax: Apply High Performance Red Hot Wax, scrape and brush. Spray on High Performance Yellow Liquid Paraffin, let stand at least 2 hours, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Red Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A fine or universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
