

WAX RECOMMENDATION

PACO'S FREESTYLE

Auburn Ski Club Training Center, Soda Springs, CA - Sunday, Dec 22

9:30 A.M. 1k, 3k, 5k, 10k, Freestyle

Interval start

<https://www.asctrainingcenter.org/events-races/nordic-races/>

Forecast/Conditions: Overnight low 30, temperature at start 34, with a daytime high of 38. Wet, new snow the day/night before with a 40 percent chance of a wintry mix expected on race day. Cloudy and breezy.

Glidewax: Apply HP Blue Hot Wax, scrape and brush, spray on HP Liquid Paraffin Yellow, let stand at least 2 hours, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax/HP Yellow Hot Wax mixed 1:1, scrape and brush.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
