

# WAX RECOMMENDATION

## POTATO CUP

Mink Creek Nordic Area, Pocatello, ID - Saturday, Jan 25

11 A.M., 15k/10k/5k/3k, Skate

Mass start, 1-3 laps

<https://pokyc.org/races-events/potato-cup/>

---

**Forecast/Conditions:** Mink Creek Nordic Area has great coverage with excellent skiing. Friday night low around 8F with a 40 percent chance of snow. Race start temperature in the upper teens with a high of 26 and 7-10 mph winds. Course will be PistenBully groomed Friday night and the track should be fast but not too firm.

**Glidewax:** Apply Base Performance Blue Hot Wax, scrape and brush. Then apply High Performance Blue Hot Wax, scrape and brush.

**Gripwax:** n/a

**Structure:** A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
