

WAX RECOMMENDATION

RACE FOR DIAMONDS

Jug Mountain, McCall, ID - Saturday, Jan 11

3:30 P.M., 8k/2.3k/.5k, Skate

Relay team or individual mass start, multiple laps

<https://www.mccallnordic.com/racing/>

Forecast/Conditions: A few inches of new snow leading up to race day. Friday night low around 22 degrees. Saturday high and race start temperature of 27 with a 40 percent chance of snow. The course will be well skied-in prior to the race but conditions have been firm and fast.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush. Apply High Performance Blue Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
