

# WAX RECOMMENDATION

## GHN – ADK GAMES - CLASSIC

Lapland Lake, Schenectady, NY - Saturday, Jan 18

11 A.M., 10k, Classic

Individual start, one lap

<https://www.skireg.com/ghn-adkgames>

---

**Forecast/Conditions:** Overnight low 23, temperature at start 33, several inches of packed powder with some thin spots. Expect cloudy skies with rain likely after 1 P.M.

**Glidewax:** Apply HP Red Hot Wax, scrape and brush, spray on HP Liquid Paraffin Yellow, let stand at least 2 hours, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply BP Red Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

**Gripwax:** Roughen base with 150 grit sandpaper, apply Nordic Base Klister Green, heat and smooth. While still warm, apply Nordic Klister Red and Klister Yellow in an alternating chevron pattern, smooth, let cool.

**Structure:** A wet structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](https://www.toko-us.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
