

# WAX RECOMMENDATION

## ALLEY LOOP

Center for the Arts, Crested Butte, CO - Saturday, Feb 1

9 A.M. starts - 10k, 21k, 42k, Skate/Classic

10k one lap, 21k two laps, 42k three laps

<https://www.cbnordic.org/alley-loop>

---

**Forecast/Conditions:** Overnight low 12, air temperature at start 21, expect dirty snow down low with many road crossings and relocated snow on town streets. Temperature rising to low 30s with a slight chance of snow.

**Glidewax:** Apply Performance Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax/HP Red Hot Wax mixed 1:1, scrape and brush. Then spray on HP Liquid Paraffin Blue, let stand overnight, then polish with the Polishing Brush Liquid Paraffin

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3-4 layers of Nordic GripWax Blue, corking smooth between layers.

**Structure:** A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
