

WAX RECOMMENDATION

CHASING THE SUN BIATHLON

Liberty Bell HS, Winthrop, WA – Saturday, Feb 22

10:15 A.M. Zero, 11:15 A.M. Race 2.4k-10k, Skate

Wave start by distance

<http://www.methowvalleynordic.com>

Forecast/Conditions: Overnight low of 21 following a week that gained a bit of snowfall to freshen things up. Snowpack is mostly transformed with firm conditions. Temperature to rise to around 33 by the end of the event with 1 inch of snowfall predicted before the race is complete.

Glidewax: Apply BP Red Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush. Spray on [Jet Liquid](#) Yellow, let the ski dry flat for at least 20 minutes or more. No need to brush or polish Jet Liquid before skiing.

Gripwax: NA

Structure: A Universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax or before applying Jet Liquid will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
