

# WAX RECOMMENDATION

## BANGTAIL BIATHLON

Crosscut Mountain Sports Center, Bozeman, MT - Saturday, Feb 22

9 A.M., 4.5k-20k, Skate

Individual start, Multiple laps

<https://www.crosscutmt.org/bangtail-biathlon>

---

**Forecast/Conditions:** Overnight low of 23 with a high of 39. Temperature at start 28 with a snow temperature of 25. Expect winds to increase throughout the morning with gusts up to 25 mph.

**Glidewax:** Apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush. Sprinkle on [Jet Powder](#) Red, make two passes with iron at 180c, let cool, scrape and brush. Polish with a merino wool roller. Then spray on [Jet Liquid](#) Red, let the ski dry flat for at least 20 minutes. Polish the Jet Liquid with a merino wool roller before skiing to best suit these snow conditions.

**Gripwax:** N/A

**Structure:** A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax or Jet Powder but before applying Jet Liquid will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](https://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
