Wave starts based on distance, 2 laps 20k, all others single lap

https://jhsclub.org/moosechase?mc_cid=d2dboffoeg&mc_eid=73e59996b8

Forecast/Conditions: With several days of below zero F temperatures leading up to the race, the track will remain cold. Several inches of snow are forecasted Thursday night through Saturday morning and expect snow showers Saturday morning. Expect soft conditions. Overnight low 18, temperature at start 22.

Glidewax: Apply BP Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax, scrape and brush. Sprinkle on [Jet Powder](#) Blue, make two passes with iron at 180c, let cool, scrape and brush. Polish with a merino wool roller. Then spray on [Jet Liquid](#) Blue, let the ski dry flat for at least 20 minutes. No need to brush or polish Jet Liquid before skiing.

Gripwax: N/A

Structure: A cold structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax or Jet Powder but before applying Jet Liquid will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
