

WAX RECOMMENDATION

VASALOPPET USA

Nordic Center (accessed via Mora Elementary School), Mora, MN - Saturday, Feb 8

9:30 A.M., 48k/34k/12k, Freestyle

Mass start, 12k lap

<https://vasaloppet.us/2025/01/race-details-finalized/>

Forecast/Conditions: Overnight low of 7F rising into the mid-teens for the start and throughout the race. Mostly cloudy with a slight breeze from the NE. Percentage chance of snow varies from 60 percent from midnight to 5 A.M., 90 percent from 5 A.M to 11 A.M. and 70 percent from 11 A.M. to 5 P.M. (total of 4 – 7 inches). Expect a solid racing platform of old manmade snow covered with the new snow forecast for Friday evening into Saturday.

Glidewax: Apply BP Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax, sprinkle on X-Cold Powder, iron in together, scrape and brush.

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
