

WAX RECOMMENDATION

OISRAN STATE CHAMPIONSHIPS

Mt. Bachelor, Bend, OR - Saturday, Feb 22

9 A.M. Girls, 10 A.M. Boys, 4K Classic; 11:45 A.M. Mixed Relay

Interval start, one loop

<https://oisran.org/2025-state-championships/>

Forecast/Conditions: Fresh snow earlier in the week. Overnight low on Friday night of 30. Saturday, some snow and rain possible with a high of 40. Snow conditions should be fairly clean, but softening up by the afternoon.

Glidewax: In compliance with [OISRAN wax rules](#), apply BP Red Hot Wax, scrape and brush, spray on Performance Liquid Paraffin Yellow, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply BP Red Hot Wax, scrape and brush, then apply Performance Yellow Hot Wax, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2-4 alternating layers of Nordic GripWax Red and GripWax Yellow, corking smooth between layers.

Structure: A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
