

WAX RECOMMENDATION

GLIDES OF MARCH

Teacup Nordic, Mt. Hood, OR – Saturday, March 22

10 A.M. 2k Kids' Race, 10:30 A.M. 5k, 11 A.M. 15k

All races are mass start, Freestyle technique

<https://teacupnordic.org/pages/glides-of-march>

Forecast/Conditions: Overnight low of 27, temperature at start 32. Surface will be newly fallen, untransformed snow with additional snow falling during the race.

Glidewax: Apply BP Yellow Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush. Sprinkle on [Jet Powder](#) Yellow, make two passes with iron at 180c, let cool, scrape and brush. Polish with a merino wool roller. Then spray on [Jet Liquid](#) Yellow, let the ski dry flat for at least 20 minutes. No need to brush or polish Jet Liquid before skiing.

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax or Jet Powder but before applying Jet Liquid will best suit these conditions.

Created by Samuel Cordell, Toko Tech Team member since 2014

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
