## WISCONSIN BIATHLON RACE SERIES #2

Ariens Nordic Center, Brillion, WI -- Sunday, Jan 11

10 A.M. Zero, 11 A.M. Race, 12k/7.5k/5.5k, Skate

Mass start, multiple laps

<https://ariensnordic.com/calendar/winter-biathlon-race-series-2/>

---

**Forecast/Conditions:** Saturday night low in the mid-20s with 3 to 5 inches of snow falling during the night. Expect a firm skate deck of mixed manmade snow covered with an inch of fresh snow that is expected to fall after grooming is completed. Race time temperature will be in the mid- to high 20s. Expect the snow to glaze and slowly loosen up with lap traffic

**Glidewax:** Apply HP Red Hot Wax, scrape and brush, lightly rub on Jet Bloc Red, polish with the Rotary Brush Merino Wool, repeat the Jet Bloc rub/polish for a second coat. Then quickly (about 2 to 3 seconds) spray [Jet Liquid](#) Red tail to tip, let sit for 10 minutes, go ski.

**Gripwax:** N/A

**Structure:** A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax or polishing the Jet Bloc but before applying Jet Liquid will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](https://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
