

# WAX RECOMMENDATION

## LOW-PET LAW-PET CHALLENGE

Theo Wirth Park, Minneapolis, MN – Sunday, Jan 11

8:40 A.M., 5k/10k, Freestyle

Mass start, 5k laps

<https://loppet.org/event/low-pet-law-pet-challenge/>

---

**Forecast/Conditions:** Overnight low and start time temperature of 12 rising to 14 during the races. After the warm weather earlier in the week, expect the skate deck to be solid and glaze quickly. The uphill may get soft from heavy traffic.

**Glidewax:** Apply HP Red Hot Wax, scrape and brush, lightly rub on Jet Bloc Red, polish with the Rotary Brush Merino Wool, repeat the Jet Bloc rub/polish for a second coat. Examine the base after applying the Jet Bloc, making sure the base looks black and feels slippery – you should not see any wax build up. Then quickly (about 2 to 3 seconds) spray Jet Liquid Red tail to tip, let sit for 10 minutes, go ski.

**Structure:** A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax or polishing the Jet Bloc but before applying Jet Liquid will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](https://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
