

WAX RECOMMENDATION

L.L. BEAN BILL KOCH LEAGUE FESTIVAL RELAY RACE

Jackson XC Touring Center, Jackson, NH – Saturday, Feb 28

9:30 A.M., 2k, Classic Relay

Mass start, 2 X 2k

<https://nensa.net/bkl-festival/>

Forecast/Conditions: Overnight low of 20 rising to 25 at start. Temperature will reach 45 during later races under sunny skies. Expect PistenBully track of new snow that will glaze.

Glidewax: For racers starting before 11 A.M., apply Base Performance Red Hot Wax, scrape and brush, go ski. For later racers, apply BP Yellow Hot Wax, scrape and brush, go ski!

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3-4 layers of Nordic GripWax Red, corking smooth between layers.

Structure: A Universal structure covered by one pass with the Red Structurite tool (for races before 11 A.M, Yellow Structurite tool for later races) after scraping and brushing the final Hot Wax will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
