

# WAX RECOMMENDATION

## RANGELEY LOPPET -- SUNDAY

Rangely Lakes Trail Center, Rangely, ME – Sunday, March 1

9:05 A.M., 25k Classic, 9:45 A.M. 25k Freestyle, 10:10 A.M. 25k Tour

1 lap

<https://www.skireg.com/rangely-loppet>

---

**Forecast/Conditions:** Overnight low of 16 rising to 19 at the start. There will be new falling snow on top of well-groomed snow. The temperature will stay cooler with max of 20 around 10:30 A.M. The snow conditions will be mix of drier new snow on top of glazed and transformed snow.

**Glidewax:** Apply HP Red Hot Wax, scrape and brush, sprinkle on [Jet Powder](#) Red, make two passes with iron at 180c, let cool, scrape and brush using the copper brush and polish with a merino wool roller. Then quickly (about 2 to 3 seconds) spray [Jet Liquid](#) Red tail to tip, let sit for 10 minutes, go ski.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2 layers of Nordic GripWax Blue, corking smooth between layers. Then apply 2 layers of GripWax Red, corking smooth between layers. If icing occurs, cover Red layers with 1 more layer of GripWax Blue.

**Structure:** A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax or polishing the Jet Powder but before applying Jet Liquid will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
