

WAX RECOMMENDATION

EASTERN HIGH SCHOOL CHAMPIONSHIPS CLASSIC

North Creek Ski Bowl, North Creek, NY – Saturday, March 7

9:30 A.M., 7.5k, Classic

Mass start, three laps

<https://goremountain.com/nensa-eastern-championships-2026/#date=20260308>

Forecast/Conditions: Overnight low of 33, temperature rising to 40 at start. Chance of showers. Mix of natural and manmade snow that is very transformed.

Glidewax: Apply HP Red Hot Wax, scrape and brush. Then quickly (about 3 to 4 seconds) spray [Jet Liquid](#) Yellow tail to tip, let sit for 10 minutes, go ski.

Gripwax: Roughen base with 150 grit sandpaper, apply Nordic Base Klister Green, heat and smooth. While still warm, apply Nordic Klister Red and Klister Yellow in an alternating chevron pattern, smooth, let cool.

Structure: A wet structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax but before applying Jet Liquid will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
