Start times from 11 A.M. to 1:30 P.M.

15K/10K/5K/3K/1.5K, Skate

Mass starts

More info [here](#)

Forecast/Conditions: Saturday night chance of snow, low in the 20s. Sunday cloudy, chance of snow, high 25 to 35. Snow will be a mixture of manmade/old snow and whatever new snow falls.

Glidewax: Apply LF Black, scrape and brush, then apply HF Red/HF Yellow mixed 1/1, scrape and brush. Finish by crayoning JetStream Yellow, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: A universal grind covered by one pass with the Red Structurite tool before JetStream application will best suit these conditions.

Created by Patrick McGownd, Toko Tech Team member since 2000.

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](#).
