

WAX RECOMMENDATION

Betty Woolsey Trail Creek Classic

Trail Creek Ranch, Wilson, WY

Saturday, December 31

10 A.M.

10K/5K/2K, Classic technique

Mass start

1 loop

jhskiclub.org

Forecast/Conditions: Overnight low in the single digits, temperature at start in the high teens. Clear overnight. Expect packed powder, possibly softer tracks after a week of heavy snow.

Glidewax: Apply LF Blue, scrape and brush, then apply HF Blue, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply several thin layers of GripWax Blue, corking between layers.

Structure: A fine linear structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the [Wax Tips](http://TokoUS.com) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
