

WAX RECOMMENDATION

Biathlon Cup #1 Sprint Race

Rendezvous Ski Trails, West Yellowstone, MT

Sunday, December 11

11 A.M.

10K/7.5K/4.5K Skate

Interval start

www.skirunbikemt.com

Forecast/Conditions: Overnight low 10F with a 30 percent chance of snow and up to 1" new snow possible. Sunday a slight chance of snow with temperature at start around 20. Expect fresh snow conditions.

Glidewax: Apply LF Blue, scrape and brush, then apply HF Blue, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad. For Junior U14 and under, NF waxes are encouraged. See note at bottom.

Gripwax: n/a

Structure: A universal grind or a fine linear grind covered by one pass with the Blue Structurite tool before JetStream application will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
