10:30 A.M.

6.2K U16 Boys/Girls, 9.3K all others, Skate

Mass start, 3.1K loop

2 laps U16, 3 laps all others

More info [here](#)

Forecast/Conditions: Overnight low 5F, temperature at start 17, 2-5" refrozen surface with light layer of fresh powder. Cloudy, minimal chance of new precipitation during race.

Glidewax: Apply LF Black, scrape and brush. Then apply HF Blue, scrape and brush. No Block/Liquid/Powder topcoat for this race!

Structure: A fine grind covered by one pass with the Blue Structurite tool will best suit these conditions.

Created by Duncan Douglas, Toko Tech Team member.

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](#).
