

WAX RECOMMENDATION

Krazy Klassic

Huron Meadows Metropark, Brighton, MI

Sunday, January 15

10:30 A.M.

12K/8K (Multi-lap course depending on snow), Classic

<http://nordicskiracer.com>

Forecast/Conditions: Overnight low of 18 at 6 A.M. rising to 28 at 11 A.M. Expect a hard pack trail of manmade snow.

Glidewax: Apply LF Black, scrape and brush, then apply HF Blue/HF Black mixed 1/1, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Klister Green, cork smooth, let cool. Then apply 1 layer of Nordic Klister Red. If icing, cover with 1 layer of Nordic GripWax Red and cork lightly.

Structure: A fine linear structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Created by Nick Baic, Toko Tech Team member since 2007.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
