Cabin Creek Exit 63 Hwy 90, Snoqualmie Pass, WA

Sunday, February 12

10 A.M.

15K/5K, Skate

Wave starts

15K is 2 loops

<http://www.kongsbergers.org>

Forecast/Conditions: Major week of snowfall with high moisture content tapering by Friday night. Snow should pack well for firm and fast conditions. Low Saturday night of 21 with slight chance of flurries. Temperature predicted to rise quickly Sunday under mostly sunny skies with daytime high of 39. Estimated snow temperature at race of 28.

Glidewax: Apply LF Black, scrape and brush, then apply HF Yellow, scrape and brush. Finish by crayoning JetStream Yellow, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: NA

Structure: A medium linier or universal structure covered by one pass with the Yellow Structurite tool (before JetStream application) will best suit these conditions.

Created by David Ford, Toko Tech Team member since 2003.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
