

# WAX RECOMMENDATION

## Wasatch Citizens Series #4

Soldier Hollow, Midway, UT

Saturday February 11

10 A.M.

10K Skate

Probably 2-3 loops, Wave start

[Link to race info](#)

**Forecast/Conditions:** Overnight low of 34 with occasional sleet overnight and during the event. Snow will be wet and soft especially once it is skied in. There is also a deceptive amount of dirt in the track so ski as little as possible on your race skis. Bottom line: use your best "wet snow" skis.

**Glidewax:** Apply LF Black, scrape and brush, then apply HF Black/HF Yellow mixed 1:1, scrape and brush. Finish by crayoning JetStream Yellow, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** N/A

**Structure:** Wet snow stonegrind or one good pass with Yellow Structurite followed by one pass with Blue Structurite (after JetStream application) will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
