7.5K Women, 10K Men

Pursuit format

See website for additional details

<http://www.wabiathlon.org>

**Forecast/Conditions:** Snowpack should firm up a bit compared to Saturday. Overnight low of 19. Snow temperature at race time close to 25 under cloudy skies. Daytime high of 33 forecast.

**Glidewax:** Apply LF Black, scrape and brush, then apply HF Red/HF Yellow mixed 1/1, scrape and brush. Finish by crayoning JetStream Yellow, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** NA

**Structure:** A medium linear or universal structure covered by one pass with the Yellow Structurite tool followed by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Created by David Ford, Toko Tech Team member since 2003.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
