

# WAX RECOMMENDATION

## Cheri Walsh Memorial Eastern Cup

Holderness School, Holderness, NH

Sunday, February 12

10 A.M. U16 Boys 5K, 10:45 A.M. All Women 5K

12:15 P.M. Men 10K

Skate, Interval start

Forecast/Conditions: Low of 23 overnight Saturday. Snow on Sunday with the temperature rising to a high of 32.

Glidewax: Apply LF Black, scrape and brush, then apply HF Red/HF Yellow mixed 1:1, iron in together, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A fine universal structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Created by Rob Bradlee, Toko Tech Team member since 2000.

Check the [WaxTips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](#).
