

WAX RECOMMENDATION

Erik Judeen Classic Race

Korkki Nordic Center, Duluth, MN

Sunday, February 5

11 A.M.

10K Classic

Mass start

<http://ericjudeen10k.zapevent.com>

Forecast/Conditions: Overnight low 3F, temperature at start will be 17. No new snow with mostly cloudy skies. Expect icy transformed snow mixed with some fresh cold snow. Snow will start falling during the race.

Glidewax: Apply LF Black, scrape and brush, then apply HF Blue, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply layers as needed of Nordic GripWax Blue, corking between layers. For extra speed finish with one layer of Nordic GripWax X-Cold.

Structure: A fine linear grind covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
