Frisco Nordic Center, Frisco, CO

Sunday, February 12

9 A.M. 20K Skate, 9:30 A.M. 10K Skate/Classic

10 A.M. 5K Skate/Classic

Mass start

www.townoffrisco.com/play/46th-annual-frisco-gold-rush/

Forecast/Conditions: Overnight low of 14 warming to the upper teens by the start. A 70 percent chance of snow overnight. Possible 5-10 inches of new snow between Saturday afternoon and Sunday morning.

Glidewax: Apply LF Black, scrape and brush, then apply HF Blue/HF Red mixed 1/1, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2-3 layers of Nordic GripWax Red, corking between layers.

Structure: A fine linear structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
