Mt. Ashwabay, Bayfield, WI

Saturday, February 4

9:30 A.M. Youth 3.5K; 10:15 A.M. High School 7K

11 A.M. Adult Pursuit, 10K Classic and 11K Skate

All Mass start

<http://ashwabaysummitskirace.com>

Forecast/Conditions: Overnight low 6F, temperature at start will be 18. No new snow with mostly cloudy skies. Expect icy transformed snow mixed with some fresh cold snow. Snow will start falling during the pursuit race.

Glidewax: Apply LF Black, scrape and brush, then apply HF Blue, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply layers as needed of Nordic GripWax Red, corking between layers. For extra speed finish with one layer of Nordic Gripwax Blue.

Structure: A universal grind covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Created by Blaise Sopiwnik, Toko Tech Team member since 2014.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
