

WAX RECOMMENDATION

Westonloppet

Leo J. Martin Ski Track, Weston, MA

Saturday, February 4

3 P.M.

As many 2K laps as you can do in two hours. Skate.

Mass start. You will finish the last lap you are on at the two hour mark. Most laps done wins. Count your own laps.

Forecast/Conditions: Low of 18 overnight on Friday.

Temperature slowly rising to 31 on Saturday. Sunny. Manmade snow on a 2K loop.

Glidewax: Apply LF Black, scrape and brush, then apply HF Red, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](#).
