

WAX RECOMMENDATION

Moose Chase

Trail Creek Ranch, Wilson, WY

Saturday, February 18

10 A.M.

10:30 A.M. Kids' Mini Moose Chase

30K Skate, Mass start

Jhskiclub.org/moosechase

Forecast/Conditions: Overnight cloudy, low in the mid-20s. Temperature at start near freezing with a chance of light snow, changing to rain/snow midday.

Glidewax: Apply LF Red, scrape and brush, then apply HF Red, iron in together, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: A medium structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the Wax Tips page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
