

# WAX RECOMMENDATION

## Kongsbergers Ozbaldy

Cabin Creek Exit 63 Hwy 90, Snoqualmie Pass, WA

Sunday, March 5

10 A.M.

15K Freestyle

[www.kongsbergers.org](http://www.kongsbergers.org)

**Forecast/Conditions:** Overnight low of 26 with snowfall to continue through the day Sunday before reaching a high near 32. Race time snow temperature will be around 28 with a fairly clean, wet and firm snowpack.

**Glidewax:** Apply LF Black, scrape and brush, then apply HF Yellow, scrape and brush. Finish by crayoning JetStream Yellow, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** N/A

**Structure:** A universal to wet structure covered by one pass with the Yellow Structurite tool (before JetStream application) will best suit these conditions.

Created by David Ford, Toko Tech Team member since 2003.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
