

WAX RECOMMENDATION

2017 Bill Koch League Festival

Gould Academy Trails, Bethel, ME

Sunday, March 5

10 A.M.

1K-4K Classic

Wave start

<http://bklfestival2017.com/event-information/schedule>

Forecast/Conditions: Saturday overnight low 1F, temperature at start 15. PistenBully groomed granular snow.

Glidewax: Apply NF Blue or LF Blue, scrape and brush. This BKL Festival does not allow HF waxes or topcoats.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Klister Green. While the Green is still warm, apply Nordic Klister Blue.

Structure: A fine linear structure covered by one pass with the Blue Structurite tool (after JetStream application) will best suit these conditions.

Racing - Service

Created by Stuart Kremzner, Toko Tech Team member since 2005.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
