

WAX RECOMMENDATION

TOKO[®]

The Great Ski Race

Tahoe XC, Tahoe City, CA

Sunday, March 5

9 A.M.

30K, Freestyle

Wave start

Point-to-Point (Tahoe City to Truckee, CA)

<http://www.tahoexc.org>

Forecast/Conditions: Overnight low of 32, temperature at start 25 cooling to 23 as the race day goes on. New snow on Saturday and snowing on Sunday. Windy.

Glidewax: Apply LF Black, scrape and brush, then apply HF Blue/HF Red mixed 1/1, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A.

Structure: A fine linear structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Created by Ben Grasseschi, Toko Tech Team member since 2003.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
