

WAX RECOMMENDATION

California Gold Rush

Royal Gorge XC, Soda Springs, CA

Sunday, March 19

9 A.M.

45K/30K/15K Skate

Mass start

1-3 laps

<http://www.royalgorge.com>

Forecast/Conditions: Overnight low 29, temperature at start 34 with high of 43. Transformed snow that is getting dirty. Cloudy, with a 30 percent chance of rain/snow mix. Windy.

Glidewax: Apply LF Black, scrape and brush, then apply HF Black/HF Yellow mixed 1/1, scrape and brush. Finish by crayoning JetStream Yellow, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A universal warm structure covered by one pass with the Yellow Structurite tool (before JetStream application) will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
