Saturday, March 11

9 A.M.

50K/25K/10K Skate

Mass start by distance

Point to Point, finishing at Granby Ranch

More info [here](#)

Forecast/Conditions: Friday night low in the upper 20s with a 20 percent chance of snow and windy conditions. Saturday morning slight chance of snow, warming to 34 by race start with a high in the mid-40s by race finish. Expect mostly frozen track conditions.

Glidewax: Apply LF Black, scrape and brush, then apply HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by crayoning JetStream Yellow, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A fine linear structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
