

# WAX RECOMMENDATION

## Bridger Biathlon Sprint Race

Crosscut Mountain Sports Center, Bozeman, MT

Saturday, December 9

10 A.M. Start

7.5K/6K/4.5K

<http://www.bridgerbiathlonclub.org/new-events>

**Forecast/Conditions:** Overnight mostly clear with low around 19. Saturday sunny, temperature at start around 26. Expect a firm track and transformed snow conditions.

**Glidewax:** Apply LF Black, scrape and brush, then apply HF Red, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad. For Junior skiers, apply NF Red or LF Red, scrape and brush.

**Gripwax:** n/a

**Structure:** A universal structure will best suit these conditions. If skis have a fine structure, cover with one pass with the Red Structurite tool (before JetStream application).

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
