

WAX RECOMMENDATION **TOKO**[®]

World Famous Osceola Christmas Pie Race

Osceola Tug Hill Ski Center, Osceola, NY

Saturday, December 16

11 A.M.

5K, Classic

Interval start

www.skireg.com/world-famous-osceola-christmas-pie-race

Forecast/Conditions: Overnight low 20, temperature at start 24, non-transformed, natural snow. A 50 percent chance of 1-3 inches of new snow falling overnight.

Glidewax: Apply LF Black, scrape and brush, then apply HF Blue/HF Red mixed 1/1, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3 layers of Nordic GripWax Blue, corking between layers.

Structure: A universal grind covered by one pass with the Red Structurite tool before JetStream application will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
