

# WAX RECOMMENDATION

## Boulder Lake Ski Race

Ski Den at Boulder Lake Ski Trails, Duluth, MN

Sunday, January 14

11 A.M.

32K/11K, Skate

Mass start

<http://www.boulderlakeskirace.com>

**Forecast/Conditions:** Overnight low of -14F and temperature at start of -6F. Clear skies and very little wind. Expect some new snow mixed with transformed snow.

**Glidewax:** Apply LF Blue, scrape and brush, then apply HF Blue, sprinkle on X-cold Powder, iron in together, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** NA

**Structure:** A fine linear grind with no extra structure will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
