

WAX RECOMMENDATION

Homestake Hustle Ski Race

Homestake Lodge, Homestake Pass, Whitehall, MT

Sunday, January 21

9:30 A.M. Adult, 11 A.M. Youth

10K, 3K/1K distances, Skate and Classic techniques

Mass start

www.homestakelodge.com

Forecast/Conditions: Overnight a 20 percent chance of snow, cloudy with a low around 9F. Temperature at start around 18 and mostly sunny with high of 25.

Glidewax: U14 & under, apply NF Blue, scrape and brush. For others, apply LF Blue, scrape and brush, then apply HF Blue, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply several thin layers of Nordic GripWax Red, corking between layers. Options may be GripWax Blue if snow is dry and colder or possibly a few layers of GripWax Red covered with a few layers of GripWax Blue.

Structure: A fine to light universal structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
